WEST COAST ELECTRIC FLEETS Implementation Partner Information Form

West Coast Electric Fleets welcomes organizations interested in becoming Implementation Partners. This information form is intended to help West Coast Electric Fleets get to know your organization better and help our Steering Committee make decisions about Implementation Partners. The Steering Committee is interested in:

- The zero-emission vehicle (ZEV) services and/or products you provide to fleets
- Ways your organization can encourage fleets to join and actively participate in West Coast Electric Fleets and communicate the benefits of ZEVs to fleets
- The types of information your organization would like to be able to communicate to fleets

Please use the space below or an attached sheet to provide information on the following topics. Information from this sheet will be used to review and select Implementation Partners and develop their profiles on westcoastelectricfleets.com.

Please briefly describe the ZEV-related services and/or products you provide to fleets

Please describe a specific benefit, or set of benefits, you will make available to WCEF Partner Fleets that is not available to standard customers (e.g., preferential pricing, access to free services, etc.)

Please specify how you will encourage public and private fleets to join WCEF (e.g., through co-branding, marketing campaigns, discussing WCEF with fleet customers, etc.)

Your Implementation Partner Applicant Information

Organization Name

Primary Contact Name

Primary Contact Email

Primary Contact Phone

Feel free to provide contact information for a fleet you have worked/are working with that we can contact as a reference
