West Coast Electric Fleets

Join **West Coast Electric Fleets** to access tools, technical assistance and a network of peers to help you reduce costs by incorporating zero emission vehicles (ZEVs – defined as plug-in electric and fuel cell vehicles) into your fleet. Get recognized as a leader in transforming the market for ZEVs on the West Coast.

Become a fleet partner by taking the West Coast Electric Fleets pledge. The pledge is flexible, recognizing the diverse needs, opportunities, and timeframes of public and private fleets. Whether you are considering battery electric vehicles, plug-in hybrids, or hydrogen fuel cell vehicles, West Coast Electric Fleets can help you determine what vehicles are right for you. See westcoastelectricfleets.com for more information.

Partner Benefits

TOOLKIT

- Access an online toolkit that can help you assess how ZEVs can best meet your operational needs and save you money

TECHNICAL ASSISTANCE

- Receive assistance from Clean Cities Coalitions in California, Oregon, and Washington and the Fraser Basin Council in British Columbia that will help you understand ZEV procurement opportunities
- Attend events where you can test drive electric vehicles and learn more about incorporating them into your fleet

RECOGNITION

- Be recognized for your leadership on the West Coast Electric Fleets website, through press releases, and at West Coast Electric Fleets events
- Seize opportunities to be profiled in case studies and contribute to lessons learned

PEER NETWORK

- Access a peer-to-peer network of fleet managers and owners to share challenges, needs, lessons, and resources

West Coast Electric Fleets is an initiative of the Pacific Coast Collaborative (PCC). Through the PCC, the Governors of California, Oregon and Washington, and the Premier of British Columbia—along with major West Coast cities—have set a goal to accelerate the transition of West Coast vehicle fleets to zero-emission vehicles.

This initiative is supported by a growing list of projects partners working with West Coast fleets to procure ZEVs.

You can complete this form online at westcoastelectricfleets.com, email a scanned copy to info@westcoastelectricfleets.com, or fax it to (206) 447-0956

Join West Coast Electric Fleets

We invite you to become a West Coast Electric Fleets partner by pledging to incorporate Zero Emissions Vehicles (ZEVs) into your fleet. It's easy. Start by selecting your pledge commitment. Then secure commitments from senior-level colleagues and fleet managers and announce your participation to employees and partners. Finally, share your ZEV achievements with West Coast Electric Fleets.

My organization pledges to contribute to the goal of expanding the use of ZEVs by (pick one):

ON-RAMP

Evaluating ZEVs as part of all fleet procurement (including, but not requiring, piloting the use of a small number of ZEVs) AND annually revisiting this pledge to consider a higher ZEV procurement goal.

HIGHWAY

Committing to at least 3% ZEVs for all new fleet procurement AND annually revisiting this pledge to consider a higher ZEV procurement goal.

EXPRESS LANE

Committing to at least 10% ZEVs for all new fleet vehicle procurement AND annually revisiting this pledge to consider a higher ZEV procurement goal.

DIAMOND LANE

Committing to _____ (define commitment above 10%) ZEVs for all new fleet vehicle procurement. Please indicate in the space below a year by which you plan to achieve this commitment tier.

Please provide a narrative description of your commitment (or as an attachment), including, as appropriate, specific percentages, numbers of vehicles, and timing of ZEV procurement.
